

"Cycling is an activity we can do together. It is healthy, allows us to meet people and explore places, both familiar and unknown, at our own pace."

—Jim and Carol May

"In the summer and fall roadside fruit and produce stands abound. Everyone from the casual gardener to commercial orchards and farmers have fresh produce available. By adding a carrying bag (pannier) to the bicycle, a person can pick up the ingredients for an excellent meal very easily."

—Gary Butterfield

"I like that there's something of everything: fast roads, slow roads, flat and hilly terrain. It's a good place to ride for all riders from beginners to experienced cyclists."

—Lisa Butterfield

Use lights at night

Obey all Traffic Signs & Signals

Never ride against traffic

Use Hand Signals

FOLLOW THESE EASY TIPS

Bike safety is important

I ♥ NY®
